The Kurdish red crescent has already declared on 9th :

This targeting is affecting the situation in NES for Local and IDPs in the 7 main camps in NES, we have already declared in KRC that:

Due to the clashes on the border with Turkey and injuries and casualties, we have been required to reposition our medical and ambulance teams from several camps such as Alhol, Areesha, Ain Issa, roj and other camps. Unfortunately, this situation may cause a decline in the quality of work in these camps, which contain tens of thousands of refugees and displaced people, but the priorities of the stage requires that we respond first to life-threatening situations. Most of our partners from humanitarian organizations and other INGOs in the region, for security reasons, have limited access to the camps, which threatens to decrease the service and increase the burden on the camp administrations and security forces guarding certain sectors within these camps such as Al Hol. We will work in the Kurdish Red Crescent in our best efforts to arrange our teams to respond to the emergency situation on the border with Turkey and to continue working with the same quality in the camps

The hospital in Serekaniye (Ras Al-Ain) is out of services, cases has been referred to Tal Tamr Hospital, Hassakeh Hospital and Ein Issa Hospital.

The hospital of Tilabyed (MSF) is out of the service so the cases were moved to other areas such as Einissa, and Tiltemis.

The hospital of Hasake as all Hasake area have lack of water which create problem to respond

The largest Christian Neighborhood (Bisheriya) in NE Syria is being bombed and some civilian houses were burned, 2 of the dyed civilians were from there.

In 10th of October:

since this morning TAF has removed parts of the border wall near [Tal Halaf](#), [Tal Arqam](#) and [Aziziyeh](#) villages (All Ras Al Ain, Serekaniye) and TAF (Turkish Armed Forces) and OAGs have engaged in clashes with SDF during attempts to advance further inside NES.

Clashes were reported in the three locations mentioned above as well as in Ras Al Ain Town, [Western Alok](#), near [Jan Tamer](#) (Yezidian village) and [Bir Asheq](#) village (also all in Ras Al Ain sub-district). There has been no territorial changes at the time of writing.

In Ein Issa Sub-district, two airstrikes were recorded against a bridge 3km south of Ein Issa town.

Cross border fire and clashes taking place in and around Tell Abiad town have stopped at around 0300hrs with no territorial changes.

Airstrikes:

- Sere Kaniye Ras Al Ain (x7)
- Tell Abiad (x3)
- Ein Issa sub(x2)
- Al-Malekkiyeh Derik sub-district (x1)

Indirect Fire Impacts:

- Tell Abiad sub-district (x9)
- Ras Al Ain sub-district (x6)
- Al-Malekkiyeh sub-district (x4)

- Qamishli city (x4)

- Amuda sub-district (x2)
- Ain Al Arab/Kobane (x2)

Heavy clashes were ongoing in Tilebeyd and in the morning while there was a delegation from the tribes going to support SDF from Ein issa to Tilebyed, their convoy was targeted and casualties were reported.

The Kurdish red crescent and MSF working in the hospital had then limited access to the area of Tilebeyed, while KRC teams are depending on Trauma stabilization points and ambulances (at least 15 ambulances are involved in the response so far) while the main hospital to be referred to is still KRC hospital (Shehid Legerin) in Tel Tamr, private Hasake Hospitals supported by WHO and private Qamishli Hospitals.
