Turkish and islamic groups military invasion in Northeast Syria:

9th , 10th ,11th ,12th of October, 2019

On October 9, 2019 the Turkish army with islamic alies started an offensive targeting mainly the area between Serekaniye and Tilebyed. SDF in turn started to defend the area, after few hours a massive displacement of pupuation started toward south areas of Hasake, Raqqa, einissa and Tiltemir, below is the detailed report for each day with photoes and the casualties recorded.

- 12 of October

- Civilian Casualties records

- 11 of October

- 10 of October

- 9 of October

12th of October:

- Massive displacement happened in Kobane since the night after targeting the city. The main hospital was out of the service for three hours because of close bombing that caused damage.
- An explosion occurred in front of [Al-Hasakeh Central Prison](#), No casualties were recorded.
- Around 7- 7:15 am Trauma Stabilization Point (TSP) set up by KRC in Salihiye village, south of Ras Al Ain has been hit by, what we believe, was an airstrike. The TSP was temporarily placed there to support injured persons, 15 minutes away from the front line of RAA. Two KRC staff were injured. Four patients were inside of the TSP but they were not further injured and they have been evacuated to Tal Tamer hospital. Two ambulances have been damaged. Both them and staff were clearly displaying KRC logo. KRC staff on the ground report that the airstrike was not nearby but believed they were directly targeted. As a result, the two ambulances were out of the services and the driver and the paramedic were injured.
- The entirety of the [M4](#) between Ein Issa and Tell Tamer remains under SDF control. However, Turkish backed groups or cells have reportedly made territorial advances between Tell Abiad and Ras Al Ain during the night – around [Rajim Aanwa](#) area and possibly further south. And after that they stopped the vehicles on the road and killed some of them (could be only the Kurds). The head of one party in NES (Hevrin Khelelf) was one of the casualties and was captured with the driver. As Heyva Sor with our humanitarian partners we get a lot of support from Hevrin as she was into the humanitarian work deeply. One of her speeches- **“The war in Syria has destroyed the places of childhood of millions of Syrians. In Ain Issa camp for displaced Syrians, we suggested that we give the displaced people every tent, a small tree,**

they plant in front of their tent. Take care of it. To be remembrance of them, after they left the camp towards their cities and homes. It will be a beautiful green memory, in a land that has grieved them and made them homeless. ”

- Tellebyed was heavily bombed all the day and medical teams are still working inside and trying to help the injures although there is a lot of randomly targeting everywhere, which limit the movement and the work in trauma stabilization points and not any more as hospital. KRC team there were trying to rise a flag showing that they are humanitarian organization but this seems not working as they targeted the TSP in Ras Al Ain.
- Our teams cannot reach Ras Al Ain anymore, but we are still trying to find a way, and there is targeting on our ambulances as we try to go closer. After the TSP was targeted the situation get worse.

KRC Trauma stabilization point targeted south Serekaniye and team injuries

A woman, Imam Ibrahim, 24 years, was killed in Qamishli city by a shot (probably sniper) from the Turkish side.

Two civilian (Shepherd) were targeted in Berabita village, Malikiya district. One died and the other lost his leg.

Massive displacement occurred, more than 200.000 toward south areas from the border strip, most of them are children and women

Infrastructures:

- There is lack of water in whole area of Hassakeh, due to the targeting the main water station in Alok, which covers more than 500.000 people. This is also affecting all hospitals in this region.
- Electricity and phone network is getting decreasing in general in all the areas, especially in the border strip.

In 10th of October:

since this morning TAF has removed parts of the border wall near Tal Halaf, Tal Arqam and Aziziyeh villages (All Ras Al Ain, Serekaniye) and TAF (Turkish Armed Forces) and OAGs have engaged in clashes with SDF during attempts to advances further inside NES.

Clashes were reported in the three locations mentioned above as well as in Ras Al Ain Town, Western Alok, near Jan Tamer (Yezidian village) and Bir Asheq village (also all in Ras Al Ain sub-district). There has been no territorial changes at the time of writing.

In Ein Issa Sub-district, two airstrikes were recorded against a bridge 3km south of Ein Issa town.

Cross border fire and clashes taking place in and around Tell Abiad town have stopped at around 0300hrs with no territorial changes.

Airstrikes:

- Sere Kaniye Ras Al Ain (x7)
- Tell Abiad (x3)
- Ein Issa sub(x2)
- Al-Malekkiyeh Derik sub-district (x1)

Indirect Fire Impacts:

The Kurdish red crescent has already declared on 9th :

This targeting is affecting the situation in NES for Local and IDPs in the the 7 main camps in NES, we have already declared in KRC that:

Due to the clashes on the border with Turkey and injuries and casualties, we have been required to reposition our medical and ambulance teams from several camps such as Alhol, Areesha, Ain Issa, roj and other camps. Unfortunately, this situation may cause a decline in the quality of work in these

camps, which contain tens of thousands of refugees and displaced people, but the priorities of the stage requires that we respond first to life-threatening situations. Most of our partners from humanitarian organizations and other INGOs in the region, for security reasons, have limited access to the camps, which threatens to decrease the service and increase the burden on the camp administrations and security forces guarding certain sectors within these camps such as Al Hol. We will work in the Kurdish Red Crescent in our best efforts to arrange our teams to respond to the emergency situation on the border with Turkey and to continue working with the same quality in the camps.

The hospital in Serekaniye (Ras Al-Ain) is out of services, cases has been referred to Tal Tamr Hospital, Hassakeh Hospital and Ein Issa Hospital.

The hospital of Tilabyed (MSF) is out of the service so the cases were moved to other areas such as Einissa, and Tiltemis.

The hospital of Hasake as all Hasake area have lack of water which create problem to respond,

The largest Christian Neighborhood (Bisheriya) in NE Syria is being bombed and some civilian houses were burned, 2 of the dyed civilians were from there.
